**Associate an email address with a Google account**

**Associate work email addresses with your Google account**

- Login to the Google account you want associated with the email address
- Under "Personal Settings" find the list of "Email Addresses".
- Click "Edit" to change email associations
- Add addresses to the "Add an additional email address:" field
- A confirmation email will be sent to that address
- Click the link in the confirmation email
- Once the confirmation has been received by Google you can go back into Personal Settings | Email Addresses and check the Activate box next to the address.

**Why is this useful?**

<table>
<thead>
<tr>
<th>Associate email addresses with your account</th>
</tr>
</thead>
<tbody>
<tr>
<td>Adding email addresses helps Google associate useful information with your Google Account. For example, Google Calendar can show invitations sent to any of your addresses.</td>
</tr>
</tbody>
</table>

**Find out what accounts an email address is linked to**

Under Construction.
